The 10th and final summer facilities update has arrived! Wow – where did the summer go?? I
will be making a public presentation at the September 27 Board of Education Meeting for the
purpose of updating the Board and community on the status of our 5-year Facilities Plan. So if
you missed any of the weekly updates, or you are interested in learning more about the
completed and future facilities work, feel free to attend this meeting.

The work that we accomplished this summer focused on KPHS, WTRMS, Fort Salonga, and San
Remo (Administration Building). RJO and Park View will be a focus for the work which is
planned for Phase 2 (Summer, 2017). Phase 2 will also include lighting for the multipurpose
field and upgrades for the KPHS auditorium and library.

The KPHS main gym and track/multipurpose field at are on schedule and looking great! The
new partition/netting was installed in the gym last week and the installation of the new maroon
bleachers should finish up this week. Except for some small finishing work, the parking lot
projects at WTR and Fort Salonga are done, and the San Remo front lot should be completed this
week. The high school roof project finished on time, and the crew is in the process of removing
their storage equipment from the KPHS back parking lot.
Additional Summer Work in Kings Park:

We are appreciative that the Town of Smithtown is performing some curb and sidewalk work at RJO along Church Street. The town is installing a sidewalk along the middle part of the parking lot area along Church Street. Currently the sidewalk ends on either side of the parking lot entrance. The town will be creating one entrance/exit on the east side and another entrance/exit on the west side of the parking lot. This will make the area safer for students, staff, motorists, and pedestrians. Thank you TOS!
Upcoming Scheduled Work:

1. Installation of bleachers in the KPHS gym is scheduled to conclude this week.
2. Work will continue on the front parking lot at San Remo. We anticipate that the front of San Remo will be completed this week.
3. Vinyl asbestos tile is being removed from the first floor at San Remo this week during the New Beginnings shut down.
4. The Town of Smithtown will be working on the sidewalk and curbs at RJO along Church Street (see pictures above).

Places to Avoid:

1. Parking in the back parking lot at KPHS should be able to return to normal this week. Please just be careful as vehicles that are working on the track and field enter and exit this area.
2. The first floor at San Remo is off limits as asbestos floor tile is removed this week. Staff should enter through the door by the Mary DeRose Room and follow signs to the second floor. New Beginnings will resume normal operations on September 6.
3. The KPHS main gym is still off limits. We anticipate that the gym will be ready to go for the first day of school.
4. For the remainder of the summer and early fall, the KPHS track, football field, and area surrounding the bleachers will be off limits. For safety reasons, please stay away from this area.

Questions & Answers:

Q: What is the anticipated completion date of the new multipurpose field at KPHS?

A: The multipurpose turf field, track, and bleachers should be completed on or about the first week in October. The field should be ready to go by Homecoming, Saturday, October 15, 2016.

Q: Will the district be installing lights on the new multipurpose field?

A: Yes, but the installation of the lights will occur next summer. This part of the project requires a much lengthier approval process. The lights will be a part of the Phase 2 work next summer, which will also include the installation of a larger concession stand with bathrooms.
