This week we broke ground on many projects that the community can physically see, while continuing work on some projects that are hidden from public view. We are excited that we are progressing, and we are anticipating that most of the work at RJO and Park View will be completed by the start of school. Some work will continue into the school year, but will not impact instruction. One example is an interior door project. Unfortunately, due to further delays in the state-level permitting process, the high school parking lot project will not be completed this summer. Town of Smithtown work along Lawrence Road has also complicated matters. This is disappointing, but we need to push this project off to next summer.

Below you will find the construction that will be taking place at each school this week and the following week.

**Upcoming Scheduled Work:**

1. Any day – breaking ground on the pavement (parking lot and walkways) project at Park View.
2. While not visible to the public (other than the presence of several large dumpsters), ceilings and floors have been ripped out at Park View and RJO, and RJO ‘s auditorium is getting some much needed floor and seating upgrades.

**Places to Avoid:**

1. The parking lot adjacent to the football field at RJO will be off limits for several weeks. For safety reasons, please steer clear of this parking lot. You should access the fields between RJO and WTR from WTR until further notice.
2. The vinyl asbestos tile abatement at RJO and Park View are being finished this week, however, please stay clear of the area so the workers can complete the remaining projects.
3. New ceilings are currently being installed at RJO and Park View.
4. New auditorium seats are being installed at RJO.
