This week we are starting to finish up some of the major projects that you have been seeing all summer. The fence around RJO should be coming down within the next ten days to unveil the paving work that was completed. Additionally, I am happy to report that the State Education Department finally approved the high school projects. We immediately mobilized our resources, and while the unexpected delays in state approval will affect our timelines, we will still be able to get the majority of the work done this school year.

Below you will find each school and the construction that will be taking place there this week and the following week.

**At KPHS:**
- We have been approved!
- Library Media Center
- Auditorium upgrades
- AC for auditorium and main gym

**At WTR:**
- Pending State Approval – this project (field irrigation and gym upgrades) was next in the state review queue after KPHS

**At RJO:**
- Parking lot & walkways renovations
- Floor & ceiling renovations
- Electrical upgrades
- Auditorium renovations, including seats

**At Park View:**
- Paving upgrades
- Floor & ceiling renovations
- Rest room renovations
- Electrical upgrades

**Upcoming Scheduled Work:**
1. Park View parking lot will be under construction the remainder of the week.
2. RJO’s classrooms and hallways should be completed this week.
3. Work will begin on the KPHS Library Media Center.
4. The electrical work will begin on the KPHS track & field lights.
5. Auditorium upgrades will continue at KPHS. The remainder of the old seats will be removed, and the new seats are on order.

Additional dry wells at RJO.
**Places to Avoid - Please avoid these areas while under construction:**

1. The parking lot adjacent to the football field at RJO will be off limits until further notice. For safety reasons, please steer clear of this parking lot. You should access the fields between RJO and WTR from WTR.
2. New ceilings are currently being installed at RJO and Park View.
3. New auditorium seats are being installed at RJO.
4. The Park View parking lot will be under construction this week.
5. New backstops are being installed on the baseball fields at WTR this week.

Lastly, this past week, the Town of Smithtown installed crossing walk signs on Old Dock Road on both the east and west sides of the street. We are very appreciative of the Town of Smithtown for making this happen. This will serve to make crossing Old Dock Road much safer for students, parents, and employees.

Lastly, the district is currently working with a few groups, including the Kings Park Education Foundation, to finally resurface the old gravel track between RJO and WTR. We are pursuing a grant that would supply the remaining resources and bring this project to fruition.
