The update last week touched upon the projects that are going to be done this year in the KPCSD. As we approach mid-summer we are starting to break ground at the schools on many of the projects that were outlined previously. Official State approval is imminent for KPHS and WTR projects. Staffing issues and delays on the State level have presented challenges for us, but we are ready to mobilize quickly and begin work at KPHS and WTR as soon as possible.

Below you will find each school and the construction that will be taking place there this week and the following week.

### Upcoming Scheduled Work:

1. Any day – Breaking ground on the pavement (parking lot and walkways) project at RJO.
2. While not visible to the public, RJO and PV are getting some much needed electrical upgrades this summer. In addition, the restrooms at PV are getting a much needed facelift.

### Places to Avoid:

1. The parking lot adjacent to the football field at RJO will be off limits for several weeks. For safety reasons, please steer clear of this parking lot. You should access the fields between RJO and WTR from WTR until further notice.
2. Due to vinyl asbestos tile abatement, RJO and Park View schools continue to be closed until further notice. Once the old asbestos tile is removed, new floor tiles will be installed.
3. Once the flooring project is complete, new ceilings will be installed at RJO and PV.
4. Once the flooring project is complete, new auditorium seats will be installed at RJO.
