The Summer facilities work is underway and we are making progress! Below you will find some information and photos of the work that is currently being completed.

**Kings Park High School**

- Locker room renovations – this is a much overdue project. The locker rooms at the high school will receive new lockers, floors, benches, lighting, and improved ventilation. Currently, the demo work is done.

- Bathroom renovations – New tiles have been installed on the walls and floors, new sinks and toilets have been installed, and crews are just finishing the partitions. Lighting and a fresh coat of paint will be the last step.
William T. Rogers Middle School

- Roof Replacement Project – Layers of old roofing are currently being stripped away and discarded. Please avoid this area during the coming weeks, as asbestos abatement and cement removal is in progress.

- Gymnasium bleachers replacement
- The original old bleachers have been removed, and new bleachers are on order and will be installed later this summer.
Fort Salonga Elementary School

- Complete roof replacement – this project is up and running. Please avoid this area during the coming weeks, as the project moves towards completion.

Stacks of roofing are covering the south-east side of the building.

Check your email and our school district website (www.kpcsdl.org) this summer for additional weekly updates!

Thank you, and have a great weekend!

Timothy T. Eagen, Ed.D
Superintendent of Schools
Kings Park Central School District
